DRAFT · SUGGESTED PRICING FOR AUSTIN TO DECIDE

Packages for your virtual employee

Every package follows the same simple path: a demo, pick a package, **1 month to build**, **1 month of edits** with your team, then ongoing monthly support and hosting. Every client gets 24/7 support for bugs and outages.

STARTER

$250/month

$1,000–2,000 setup (one-time build)

- One core app built for your business
- Hosting and monthly support
- 24/7 fixes for bugs and outages
- Minor wording edits included
- Workflow changes billed hourly

PRO

MOST POPULAR · ANCHOR

$400/month

$2,000–4,000 setup (one-time build)

- Custom app built around your workflow
- AI voice assistant: just talk to the app
- Automations for repetitive tasks
- Dedicated account manager, your liaison to our dev team
- A few change hours included each month (suggest 2)
- Hosting, 24/7 support, minor edits included

ELITE

$750+/month

$5,000–10,000 setup (one-time build)

- Multiple apps and connections to the tools you use
- Everything in Pro
- Reasonable changes included, no hourly bills
- Priority support and faster turnaround
- Dedicated account manager

Changes beyond your package

Workflow changes outside the package are billed at the base coding rate of **$110/hour**, with a one-hour minimum. Elite includes reasonable changes.

Add-ons

- Phone service: usage billed separately based on actual use.
- Custom AI features you request: quoted separately.

Draft note: all prices, setup ranges and included hours are suggestions for planning, not final pricing. The $110/hour rate, the one-hour minimum, the included minor edits and 24/7 bug and outage coverage come from the existing VersaNext fee schedule.
